MEMORANDUM

SUBJECT: Review of the Phase I Fish tissue Sampling Quality Assurance Project Plan for the Upper Columbia River Site CERCLA RI/FS Revision: August 2005

FROM: Ginna Grepo-Grove, QA Chemist
Technical Support Unit (TSU), OEA

TO: Sally Thomas, TOPO
Office of Environmental Clean-up

The review of the QA document referenced above has been completed. This document was prepared by CH2MHill for the USEPA. The plan is very well written, organized, concise and complete and was prepared in accordance with the guidelines and requirements of *EPA Guidance for Quality Assurance Project Plans (USEPA 1998, 2002a)* and the *EPA Requirements for Quality Assurance Project Plans (USEPA 2001)*.

All of the required QA elements and issues listed in the QA review memo dated 12 August 2005 have been sufficiently addressed. The document is hereby recommended for approval. Fish sample collection may commence as scheduled in the QA Plan.
